

SUCCESS STORY

TURNKEY® Rhino

5 x TKN13 1590 PR-R + blade shrouds
TKSH EXC 245 70

Location : France

Extracted Materials : Rhyolitic tuff

Machine : HITACHI ZX 870-5 Excavator - 85T

” CUSTOMER'S OBJECTIVES

- Looking for self-sharpening teeth
- Penetration
- Hammerless locking devices for safe disassembly
- To limit the wear of the adapters with the interlocking of the tooth
- To increase the life time of the teeth
- To stop the gap between the adapter and the tooth

“ RESULTS

- **Very satisfying results compared with the previous system:**
- Self-sharpening teeth
- Increased wear ratio up to 75%
- Precision / Ease of operation
- Better soil penetration
- Easy assembly & disassembly
